Brooklyn, NY | (201) 208-0996 | rhollanda95@gmail.com | [Linkedin.com/in/rafaela-hollanda](https://www.linkedin.com/in/rafaela-hollanda) | github.com/rphm95

Full-Stack Software Developer with background in law and passion for problem solving. Previously experiences helped me build a strong foundation on working under strict deadlines and to develop an analytical and logical mindset. Eager to use software engineering skills coupled with a law background.

SKILLS: Python | JavaScript | HTML | CSS | React | NodeJS | ExpressJS | MongoDB | SQL | GIT | Heroku | Netlify | JQuery | Bootstrap | React | AJAX | Responsive Design | Agile Development | MVC pattern

LANGUAGES: English, Portuguese and Spanish.

DEVELOPER EXPERIENCE

Software Engineering Fellow, General Assembly | New York, NY

12-week, 500+ hour immersive program focused on software engineering and computer science fundamentals.

Projects:

- [Portfolio Application](#): A responsive portfolio application created out of scratch using JavaScript, JQuery, HTML and CSS. It uses DOM manipulation to display models, carousels and to bring functionality.
- [World Travel Guide](#): Full stack application created with Node.js, Express and MongoDB database. The app allows the user to keep track, add, edit and remove destinations they visited or would like to visit. User can also add attractions to desired destinations, due to a relationship created between databases.
- [La Boutique](#): Full stack CRUD app in collaboration with a partner, created with JavaScript, Node, Express, React and MongoDB. App that works as a boutique, where the user can like an item and be redirected to purchase item and add their own piece of clothes or accessory.
- [LoveStruck](#): Dating app, where user can log in/create an account, swipe left and right. Full Stack CRUD app, created with Python, PSQL, React and Django, in collaboration with a partner.
